A component to maintain directory of performance teams - Orchestras, Ballets and other various Art & Music groups.

The component comprises of four jquery UI enabled site interface screens and two administration side interfaces.All interfaces has meaningful page titles and SEF urls enabled.

Client(Site) Interfaces

- All Categories View - Displays list of all published categories using jquery interface.
- Single Category View - Displays list of artbands belonging to a selected category and optional all categories list in tabs. RSS/ATOM feeds for selected category and show/hide options for administrator at the menu setup level. Show/hide number of hits for each artband entry.
- Artband Details View - Displays artband details information for the selected artband record in tabs.
- Artband Details Submission View (Entry) - Artband record submission for registered users in jquery enabled UI controls. Email would be send to admin on record submission. Provision for

administrator to allow/disallow artband publishing while submission.

Administrator Interfaces

- All Artbands View
- Single Artband View (Entry)
